Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 6, and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Hennenfent et al. (US Patent 4,006,525).

With regards to claims 6 and 8, Hennenfent discloses a method of creating clearance holes wherein a series of slots (102, 113a-f) are alternatively made in succession on adjacent sides of a part 100 in such a way as to create a continuity between material removed in providing the slots on the adjacent sides, the slots providing a clearance hole at a center of thickness of the part, see figure 1. Applicant should note that the clearance hole created by slots 102 and 113a-f could allow for continuous passage of a stay bolt or cable.

For claim 9, Applicant should note that the structure of the stay bolt or cable lends no patentable weight to the method being claimed. Furthermore stay bolts or cables with threaded ends are old and well known in the art.

For claim 10, the slots as disclosed by Hennenfent et al. could be provided in more than one part and in parts of different materials.

Allowable Subject Matter

3. Claim 7 is allowed.
4. Claims 8-10 would be allowable if rewritten to depend only from claim 7.

Response to Arguments

5. Applicant's arguments filed January 18, 2007 have been fully considered but they are not persuasive.

In response to Applicant's argument that Hennenfent et al. teaches parallel slots 102 and 106 which are non-intersecting or non-aligned, the examiner submits that while that may be true, however Hennenfent et al. also teaches aligned slots 102 and 113a-f that are aligned and intersecting as can be seen in figure 1.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
